

Can rings. Better packs.

Plastic can carriers, ringing machines and replacement parts.
18 product listings / 35 options / Canadian-dollar reference prices.
Product catalogue / Published October 5, 2026

Choose your pack. Then confirm the fit.

01 PACK SIZE

Choose four, six, eight or twelve cans. A tear-anywhere hand roll can make 4 / 6 / 8 packs.

02 CAN FIT

Confirm can-end diameter and rim profile. Standard 12 oz or 16 oz volume alone does not establish fit.

03 APPLICATION

Choose hand application or a compatible machine. Match the carrier, machine SKU and installed head.
